RIOTING AT ATLANTA

Brought About by Dastardly Deeds
of Negroes.

FOUR ON SATURDAY

Mobs For Hours Wreaked Vengeance
Upon Blacks, Killing About Six-
teen and Breaking Numer-
ous Windows.

Atlanta, Sept. 24.—A race war of alarming proportions began here Saturday night. Through the night it raged with varying vigor, and when morning dawned Sunday it found the downtown streets in possession of eight companies of the Georgia national guard, with a battery of light artillery in reserve.

This situation came as the result of the repeated assaults or attempted assaults on white women by negroes. The list of eight of such assaults, within the limits of Fulton county within the last nine weeks was added to Saturday, when four attempts at assault were reported. Flaring headlines in the special editions of afternoon newspapers wrought the populace to a high pitch of excitement. The usual Saturday night crowds were largely increased by men and boys, who thronged the downtown streets. There was no leader and no overt act until late in the evening. About 10 o'clock a negro shoved a white woman from the sidewalk on Whitehill street in the center of town. Almost simultaneously a negro woman made an insulting remark to a white man on an adjoining street, and he administered what he considered due punishment. From this start, the excited crowd, which had become a mob, began its work of destruction. Five thousand white men and boys thronged the downtown streets looking for negroes. News of a riot brought thousands more from their homes in the suburbs and residence districts until fully 10,000 men thronged the downtown section. They made attacks on the incoming cars. Each car was scoured for negroes. The trolleys were pulled from the wires, and in the semi-darkness of the unlighted car negroes were beaten, cut and stamped upon in an unreasoning, mad frenzy. If a negro ventured resistance or remonstrated, it meant practically sure death. One car half filled with negro approached from an outside run. The mob dashed for the car. Resistance was made by the negroes, who had not been apprised of the trouble. Three negroes lay dead on the floor of the car when it was permitted to move on, and two more were seriously beaten and unconscious.

When the crowd seemed to be getting beyond control, at about 10 o'clock, Mayor Woodward mounted a car platform on Peachtree and Marietta street and urged the crowd to disperse, declaring that the assailants of the white women would be adequately and promptly punished by due process of law. Mayor Woodward was given a respectful hearing, but when he finished the work of destruction was resumed. He made another appeal a few moments later, but without result.

Then he turned in a general fire alarm, calling the entire department to the scene. To Chief Joyner he gave the laconic order, "Clear the streets." The result was to stop the mob in its work in that immediate section, and to drive it to other streets. The situation became so threatening at 11 o'clock that Governor Terrell was appealed to, to order out the state troops.

Although no request had come from the sheriff, Governor Terrell gave the order mobilizing the eight local infantry companies at once. Previously a police riot call had been sounded summoning all police reserves to headquarters. With the decision to call out the troops the big fire bell sounded once more, this time the call for every member of the militia to report forthwith at the armory. It was about 2 o'clock Sunday morning before the first squad appeared on the streets, and at 5 o'clock six companies were under arms.

The attacks on the negroes had the effect of clearing the streets of blacks. Drivers on cabs and baggage wagons vanished, and their places were taken by white men. This fear of trouble effected public conveyances. The postoffice had much trouble in delivering special delivery letters; ice drivers have been scarce; in some restaurants service has been restricted by the absence of white waiters.

Throughout the day hundreds of persons have been fleeing from the city. By train and wagon and on foot they have hurried from the city, fearing the possibilities of trouble in the immediate future.

In the fighting Saturday negro women were the most warlike, urging resistance to the mob, and themselves fighting like Amazons. In the residence districts great anxiety was felt. It was a night of terror.

The crowd, after pulling the negro porters from the Pullman cars of a Western and Atlantic railroad train, proceeded to smash the windows in the day coaches and mail and baggage cars. They then crossed to the Kimball House, and continued the window smashing amusement, causing a loss of several hundred dollars. Numerous windows in stores on Peachtree street

show the fact that the mob passed that way.

It is estimated that sixteen negroes killed.

Following dastardly acts were committed Saturday:

A negro grabbed Mrs. Chaffin, a young woman, as she was walking near her home. She screamed and fled home. She left her home when the scoundrel grabbed at her. Mrs. Chaffin re-entered and got a pistol. The negro left. Three hundred men followed in pursuit.

As Mrs. Frank Arnold stepped upon her back porch a negro grabbed her.

She screamed and he fled, neighbors pursuing. Henry Green, a suspect, was jailed.

Mrs. Mattie Holcombe was closing the blinds when a negro grabbed at her. He screams frightened him away. A posse went in pursuit.

Miss Alma Allen was in her back yard when a negro grabbed at her. She screamed and fainted. The negro fled, a number of men following.

A negro shot from a two-story window. A brick killed him. Another was beaten to death on Forsyth street. A pistol was in his right hand.

At a meeting of the citizens Sunday the action of the mob was condemned.

Over Fifty Arrests.

Atlanta, Sept. 24.—Up to Sunday night, over fifty arrests of persons charged with violating the law were made. Each was placed under \$500 bond.

AGAINST BAILEY.

Effort Being Made to Prevent His Re-election by Legislature.

Austin, Sept. 24.—An effort is being made to prevent the re-election by the legislature of Senator Bailey.

At Mineola Saturday delegates to the Wood county convention were instructed to vote for a resolution asking the legislature not to re-elect he junior senator.

During a meeting at Cameron a small sized riot ensued. Resolutions were adopted protesting against Mr. Bailey's re-election.

A petition was circulated at Dallas calling for a mass meeting to protest against the senator's getting a second term.

No Instructions.

Dallas, Sept. 24.—In a letter to the News M. A. Bailey of Mineola says there were eighteen persons present at the meeting there Saturday; that only eleven participated; that every voter in the precinct was elected a delegate to the county convention at Quitman on the 29th, and that said delegates were not instructed for or against Senator Bailey.

LABORERS LEAVE.

Negroes Engaging In Other Occupations Causes Uneasiness.

New Orleans, Sept. 24.—Reports of losses threatened to the cotton crop by reason of negroes leaving the plantations in large numbers to engage in other branches of labor have been received by the New Orleans cotton dealers. The loss of negroes from the plantations is attributed principally to inducements offered them in railroad construction. Southern Louisiana and Mississippi are the regions from which the complaints come.

MR. L. A. BICE DEAD

Mr. L. A. Bice died yesterday afternoon at his home six miles north of Bryan. Mr. Bice was 39 years and 10 months old and had lived in Brazos county about three years. He leaves a wife and eight children. His death was a great shock to his family and friends. He was ill only a short time. The funeral will take place this afternoon, with interment at Wixon cemetery.

A. AND M. COLLEGE OPENING

Large Attendance of Students—Examinations and Matriculation in Progress.

The A. and M. College opened yesterday for the work of examinations and matriculation of students in the Freshman class, which will continue today. The matriculation of the old boys will be taken up Wednesday and the regular work of the institution will begin Thursday. Yesterday afternoon there were registered 219 new boys and about one hundred old boys on the grounds, the latter not being near all in yet. Of the new boys, 115 had matriculated. The preliminary work of the College has opened two days earlier this year than usual, and the indications are that the attendance will be very large.

Bryan dealers in cadets' furnishings were on hand yesterday and the scene presented about the buildings and grounds was a very busy one.

The college was never better prepared to enter upon a year's work, nor were its prospects ever more flattering, for with the building of the Bryan College trolley line its growth will no longer be hampered for want of room to take care of the students.

AN OLD PAPER.

Mr. J. F. Parks on yesterday
showed an Eagle representative a
copy of the Galveston Weekly
News of April 12, 1864, when the
paper was temporarily published
in Houston. The old paper is
the property of Mr. Jesse Youens
of Navasota and is a single sheet,
yellow with age, and devoted al-
most exclusively to civil war news.
There are interesting accounts of
Confederate victories of Mansfield
and Pleasant Hill. At the Pleas-
ant Hill engagement the report
says 1500 to 2,000 prisoners were
captured, also twenty pieces of
artillery, all wagons, ambulances,
etc., and thousands of small arms.
Capt. Chancey Sheppard of Bren-
ham was among the Confederate
officers killed in this engagement,
and Maj. Joseph D. Sayers among
those wounded.

The report says in part: "The
13th and 10th army corps were
engaged last evening. This morn-
ing the 10th army corps was again
engaged commanded by Banks in
person. They were roughly
handled, and Banks himself nar-
rowly escaped capture. Their
whole force is now in full retreat
in the direction of Natchitoches,
and being pressed by our cavalry
under Gen. Green." Green's,
Walker's and Mouton's divisions
comprised the Confederate forces.

Gen. Mouton was killed. The
report continues: "The fight was
in the woods and open fields, no
advantage of position on either side.
We whipped them handsomely."

Further on the report adds:
"Another successful battle was
fought near Pleasant Hill. We
now hold Pleasant Hill and are
pressing the enemy. We are cap-
turing prisoners everywhere.
There are 500 wounded at Mans-
field who are well cared for."

Mr. J. F. Parks of this city,
and his brother, Dr. W. H. Parks
of Morgan, Texas, were with Green's
cavalry.

First Cranberries of the season at
Ed Hall's.

Dr. B. M. Worsham has made
his annual report as superintend-
ent of the state lunatic asylum.
The report includes a resume of
the work of the Pasteur Institute
for the past two years, the first of
its existence. It has been remark-
ably successful. There were 254
patients treated and only two died,
of which he says: "It has been
the universal experience that the
treatment does not prevent the
disease in every instance, and as
we have had only slightly in ex-
cess of one-half of 1 per cent fatal-
ity, this is about as good a record
as has ever been claimed for the
treatment." The patients
came from Texas, Indian and Okla-
hom Territories, New Mexico,
Arizona, Arkansas, Kansas and
Republic of Mexico. They were
bitten as follows: By dogs, 199;
skunks, 20; house cats, 12; cows, 9;
horses, 5; wolves, 3; mules, 2;
sheep, 2; hogs, 1; coons, 1. The
bites occurred on exposed parts of
body other than on the face in 205
cases, on face 27 and through
clothing 22. There were 177 in-
digent and 49 pay patients from
Texas and 28 pay patients from
outside. The fees collected
amounted to \$2,410, expenditures
\$1,039, leaving a balance of \$1,370.
The heaviest items of expenses were
\$386 for rabbits and \$462 salary
for men caring for them. The
rabbit being an essential to the
treatment. Dr. Worsham says
that much of the time of one as-
sistant physician is taken with the
exacting duties of the Pasteur
treatment, and that he should be
allowed a small increase in salary,
to come out of the fees of the
nonindigent patients.

THE MORNING EAGLE

Entered at the Postoffice as second class mail matter.

BY CARNES & WALLACE.

BRYAN, TEXAS, SEPTEMBER 25

The surveyors of the Taylor-Brenham-Houston Railway reached the Washington county line Monday evening and are now surveying the line in this county, headed for Long Point. It is expected they will complete the survey to this place by Saturday. As soon as this survey is completed and people along the line have contributed the right of way the work of constructing the road will commence.—Brenham Press.

Ft. Worth is said to be making it hot for the vagrants, and Bryan might follow with good effect. Those who have failed to heed the call of the cotton patch ought to have a little encouragement.

There is a strong probability that a Catholic ecclesiastical province will be created, comprising the dioceses of Galveston, Dallas and San Antonio and vicariate apostolic at Brownsville, to be known as the "Province of Texas," headquarters at Galveston, with Rt. NEW MEN AT COLLEGE.

It will no doubt be interesting to our readers and especially to the student body to know something of the new men that have been selected by the College authorities to fill the vacancies created last June. Taken all together, we believe the College has been exceedingly fortunate in the men selected, and we feel that the Faculty has been materially strengthened and that great good will result to the Institution.

For the Chair of Chemistry, Dr. J. C. Blake has been elected as Professor of General Chemistry and Head of the Department. Dr. Blake comes from Colorado, and is the first distinctly Western man which the Institution has had. He is a graduate of Colorado University and subsequently took his Ph. D. degree at Yale, after which he worked two years as research chemist and instructor in the Boston Institute of Technology. For the past year or more he has been chemist at the Bureau of Standards, Washington, D. C., under control of the Treasury Department. It will thus be seen that his training and experience have been of the highest order.

It may be necessary to mention that the work in the Department of Chemistry has been divided, the agricultural side of it having been given to Dr. G. S. Fraps, who will be State Chemist, Chemist to the Experiment Station, and Associate Professor of Agricultural Chemistry.

In the Department of Drawing the College has been exceedingly fortunate in securing the services of Mr. Harry R. Weber, of Bay City, Michigan, as Assistant Professor of Freehand Drawing. Mr. Weber's training has been of a very high order. Having spent one year in the School of Illustration in Chicago, two years in the School of Industrial Art of Philadelphia, one year in the Royal Academy, Munich, Germany, and one year at the Julia Academy in Paris, France, he has had experience in teaching and comes very highly recommended.

In the Department of Mechanical Engineering Mr. W. L. Thom-

Fall Opening of the New Styles for Men

This is the great Clothing event of the year---our advance showing of the new Fall and Winter models. As everyone knows who is at all posted on the subject, the new styles are very largely originated by the Schloss designers and later copied by others.

The present season is a good illustration. Now that our Fall stock is here, we can show you new advance models that will not be generally offered for at least two or three months.

It will pay you to see these splendid garments. Not only are you certain of the new style and the right style, but the quality, fit and incomparable workmanship of these garments are thoroughly exclusive characteristics. Furthermore we have very few duplicates and our best will be quickly taken. See them now; we will reserve your selection until later, if you so desire.

The New "Harvard" Sack

Fashions don't come from London and Paris any more---most of them are brought out at the great universities like Harvard, Yale, Princeton and other famous institutions.

Here is one of the best of the new designs for Fall---called the "Harvard" because the model came from there---well shown in the illustration. You'll find it just as correct for business wear in New York or San Francisco as it is on the Harvard campus. This is only one of our "University" Models---ask to see them.

Don't confuse this design with the ordinary "straight-fronts" that you may see. The similarity ends there. Little differences of line and shape and proportion, impossible to describe, give this "Harvard" Suit an unusual character and smartness specially brought out by the fine tailoring.

Our Schloss Suits cost from \$12.50 to \$25.00
Others \$5.00 up

THE NEW VISIBLE

At Last a Perfect Visible Typewriter

The One Typewriter That Correctly Solves the Objections That Have Always Heretofore Been Made Against "Front Strike" Machines.

Visible writing has always been considered as desirable by practically all typewriter manufacturers, but the difficulties to be overcome in construction in order to secure durability have discouraged the very large adoption of these machines. The invention of the method of assembling the type bars as it is done in the Fox Visible has, however, made possible the use of a wide pivot bearing in the type hanger, thus insuring the most perfect alignment at all times and a durability that is equal to that claimed for any "basket type" machine. In building this new model, we have all the advantage of the knowledge that we have gained in building and placing the regular Fox models on the market and we are able to avoid all those experiments found in new machines which are so expensive to the purchaser.

Here is a Short Description.

THE TYPE HANGER—The hanger has a pivot bearing 7-16 of an inch wide. This allows the use of a heavy type bar, providing an adjustable pivot bearing which takes up wear as it occurs, thereby giving a permanent alignment that is impossible to secure with a narrow bearing without adjustment, and avoiding the trouble caused where "forced alignment" is necessary. This is the feature that has heretofore been considered as being impossible to secure in a visible writing typewriter. It is found only in the Fox and places the Fox Visible in a class by itself.

TWO COLOR RIBBON—The ribbon movement on this machine is simply perfection. It reverses and oscillates automatically, requiring no attention from the operator from the time it is put on until worn out. When a two color ribbon is used, by simply touching a button on the keyboard the second color is secured instantly without raising the hand or even looking.

THE INTERCHANGEABLE CARRIAGE—The carriage is so constructed that it can be quickly removed and a carriage of different length substituted. One

machine can be purchased with different sizes of carriages, thereby effecting a great saving over the ordinary method of buying a long carriage machine complete. The carriage is ball bearing and runs with a tension of only 1 lb.

PERFECT VISIBLE WRITING—The entire line is visible all the time.

THE KEY TENSION—The force required on the part of the operator to print a letter is only 2 1/2 ounces. This is from 25 to 50 per cent. less than any other. It is a vital thing both from the operator's standpoint of less fatigue and the owner's of greater durability.

THE LINE LOCK—When the carriage reaches the end of a line, the keys lock and nothing more can be written until the release button is used or the carriage returned to begin a new line.

ALUMINUM KEY LEVERS—Key levers are made of aluminum. It is more expensive than steel or wood, but it is very much more desirable.

TABULATOR—The Fox ten stop decimal tabulator is attached when ordered, at slight additional expense. It is the only decimal tabulator in use on a visible typewriter.

Every feature on this machine has been tried out and demonstrated as successful on the Regular Models of the Fox. Unprejudiced experts have without hesitation pronounced the machine a marvel.

Ask your nearest typewriter dealer to show you this machine. If he cannot we will make it easy for you.

The regular models of the Fox are still the most perfect machines of their kind and their manufacture will be continued as before.

asson of Millers School, Virginia, has been selected as Assistant Professor. He graduated from this school in 1895, since which time he has had continuous employment in mechanical lines either as instructor in Millers School or in practical work, machine shops, railroad offices, gin factories, and other industrial establishments.

In the Department of Electrical Engineering Mr. J. W. Kidd of Oklahoma has been elected to fill a new position created at the last meeting of the Board. The rapid growth of the Department of Electrical Engineering necessitates one or two new instructors each year. Mr. Kidd graduated from the Oklahoma Agricultural and Mechanical College in 1904, and had his first experience in practical lines as Superintendent of the Lighting Plant at Pawnee, Indian Territory. For the last year and a half he has been engaged by the General Electrical Works of Pennsylvania and comes very highly endorsed by the officials of that Institution.

Joseph W. King the new assistant in the Department of English

is a Georgian by birth, educated at the Alabama Polytechnic Institute, taking his B. S. and M. S. degrees there and his Ph. B. degree from the University of Chicago; then had experience in High School work in Alabama; was an assistant in English at the Louisiana State University. He comes splendidly recommended by his former instructors and by those who had him employed.

Mr. W. H. Thomas, who has been employed to fill a vacancy for one year, created by the leave of absence granted Mr. Lomax, is a graduate of the State University, and since graduation has been teaching in the Public Schools of Victoria. He comes highly endorsed by Prof. Lefevre, and Dr. Callaway of the University.

Messrs. Potts and Dean of last years class of this College are too well known by the Faculty and students to need any special comment. Both of them stood very high as students and the President feels particularly gratified that their services have been secured as

instructors for another year. Mr. Dean will do work in the Department of Drawing, Mr. Potts in the Department of Mathematics.

Mr. J. M. Carson, who succeeds Col. Harrison as Treasurer of the College, has for the past 8 years been chief bookkeeper for the McCord-Collins Co., wholesale grocer, of Fort Worth, Texas. These men say of him: "He is a thoroughly competent accountant and a man of good habits. We have always found him to be thoroughly capable in all his dealings." Mr. Carson was formerly connected with the College and his affable manners coupled with his efficient business qualifications are sure to bring him success.—The Battalion.

Men's Fall Suits

THE styles for men this season are the handsomest the designers have produced in years.

Smooth finished worsteds seem to have the lead, although soft finish velours will come in for a share of popular favor, checks and plaids will have the call with young men and for the more conservative dressers neat stripes and dark fancy patterns will be in demand.

The coats are made with broad lapels and rather close fitting in the waist, either with or without center vent, wide stitching is also a feature of this seasons clothes---the trousers are about the same as last year, rather loose fitting in the thigh.

Indigestion Causes Catarrh of the Stomach.

For many years it has been supposed that Catarrh of the Stomach caused indigestion and dyspepsia, but the truth is exactly the opposite. Indigestion causes catarrh. Repeated attacks of indigestion inflame the mucous membranes lining the stomach and expose the nerves of the stomach, thus causing the glands to secrete mucus instead of the juices of natural digestion. This is called Catarrh of the Stomach.

Kodol Dyspepsia Cure

BIG BLAZE.

Largest Planing and Lumber Mill at Macon, Ga., Destroyed.

Macon, Sept. 24.—Fire broke out in the Central City Planing and Lumber mills, the largest in this section, destroying all machinery and piles of lumber extending 100 yards alongside the Southwestern railroad. The buildings of the Central City Ice plant, on an adjoining lot, caught fire from flying sparks and were nearly destroyed. The fire raged for hours, endangering the cotton seed oil mills and other property. The loss is estimated at \$100,000.

Much Lumber Burns.

Nashville, Sept. 24.—Fire at the large lumber yards of Lieberman, Loveman & O'Brien destroyed 5,000, 600 feet of quartered oak and poplar, one dry kiln and three drying sheds. The loss is between \$125,000 and \$150,000.

FOUND ON SIDEWALK.

Man's Body Torn by Shot and His Head Was Battered.

Fort Worth, Sept. 24.—Before 13-16 Lincoln avenue, North Fort Worth, the dead body of James P. Stacey, supposed to be from Dallas, was found Sunday night lying on the sidewalk. There was a ghastly shotgun wound in his back and his head was beaten to a pulp. The man had money and valuables on his person, indicating robbery was not the object. Two men were found by the police in a house who said they heard a violent quarrel, followed by a shot gun report.

GIRL POISONED BABY

Strange Story of Murder, Prompted by Affection.

CONFESSED THE DEED

Young Indian Nurse Fires Building and Thinking Death the Penalty Takes Child's Life So Not to Be Separated.

New York, Sept. 24.—A strange story of murder, prompted by an affection that could not bear separation, has been revealed near Brewster, N. Y., through the confession of Jennie Burch, an Indian nurse girl, who is but fourteen years of age, says a dispatch to the World.

It says that a series of incendiary fires have occurred at Cowles Corners, twelve miles from Brewster, and suspicion fell on the Indian girl, Jennie Burch. She repelled the suspicions vigorously. Last Friday the girl's infant charge, Wilbur Winship, two and one-half years old, was suddenly stricken with illness and soon died. Investigation developed that the child had been given a poisoned peach. The nurse girl was questioned, suspected, but the crime seemed inexplicable, as the girl was known to be deeply attached to the child.

Sunday, just before the child's burial, the crime was explained. The girl was brought into the room where the body of the little one lay. When she saw the child she threw herself on the coffin and cried: "I killed him! I poisoned him!"

When she grew calmer she admitted that, acting under an uncontrollable impulse, she had started one of the incendiary fires. She knew she was suspected, and thinking she would have to die for the crime she poisoned the little boy, whom she loved, so that he might go with her.

FOUND HANGING.

It Is Not Known What the Motive of the Lynchers Was.

Atlanta, Sept. 24.—The body of Zeb Long, a negro, was found hanging in the woods early Monday morning, about half a mile west of East Point, a suburb, eight miles south of Atlanta. Long was locked in East Point calaboose charged with disorderly conduct. The prison was broken into shortly after midnight and Long taken to his doom. Unusual mystery surrounds the affair. It is not known yet whether Long was suspected of any connection with any of the recent assaults on white women.

The total number of dead is extremely difficult to estimate. It is reported on seemingly good authority that several bodies have been taken away secretly for burial, and it is equally probable some deaths have not been reported.

Business has resumed normal conditions.

Sixteen companies of the state infantry are on duty here, and will be kept for some days. The entire city is being patrolled, even to the limits of the residence sections.

GAY IN ATTIRE.

Pike's Peak Centennial Celebration Begins at Colorado Springs.

Colorado, Springs, Colo., Sept. 24.—With a city gay in buff and white of the revolutionary period, national colors floating from almost every building and strains of martial music resounding through the streets from early morning, the Pike centennial celebration, commemorating the discovery of Pike's peak by the man whose name it bears, opened here Monday. The chief feature was the parade of infantry, cavalry and artillery, followed by members of the Grand Army of the Republic, Colorado national guard and Spanish war veterans. Cowboys, Indians and Colorado pioneers also held conspicuous positions in the parade. Vice President Fairbanks and Mrs. Fairbanks arrived in the city from the east and were escorted to the Antlers hotel by Hon. Thomas F. Walsh, whose guests they are.

STARTLING STATISTICS.

Four Thousand Persons Put to Death Without Any Authority.

New York, Sept. 25.—The World prints a statistical story which avers that 4,000 persons have been put to death without warrant of law in the United States in the last twenty-five years. Ninety-five per cent of them, it declares, were negroes charged with assaults on white women. The methods of execution comprised hanging, shooting, flogging and burning at the stake.

Helena at Shanghai.

Washington, Sept. 24.—A cablegram received at the navy department from Commander Cutler of the cruiser Galveston at Shanghai announces the safe arrival at that port of the United States gunboat Helena. It was reported that the Helena had been lost in the great hurricane which recently swept over the China sea.

Noted Actor Dead.

New York, Sept. 24.—Cornelius B. Cammyer, known on the stage for twenty years as Neil Gray, died at his home in Brooklyn. During his career he had played with Booth, Barrett, Fletcher, Charlotte Cushman, Miss Neilson and Mrs. Fiske.

Seven Injured.

Natchez, Miss., Sept. 24.—By the blowing up of a locomotive at Ferriday Engineer Lightfoot and six other men were injured.

Broke His Neck.

Lufkin, Tex., Sept. 24.—Frank Pate fell from a second-story window of the Lufkin Avenue hotel, breaking his neck.

RANDAL KILLED STACEY.

Murder Mystery at Fort Worth Cleared Up by Confession.

Fort Worth, Sept. 24.—The mystery in the murder of James P. Stacey, early Sunday evening, was cleared. Monday morning, when Lee Randal, also of Eagle Ford, surrendered to Constable Bud Douglass at Arlington and confessed the crime, Randal immediately was taken to Fort Worth, where he waived examination and was placed under \$10,000 bond, made by his father, R. A. Randal, Dr. Harvey and J. A. Hightower.

The murder is said by the authorities to be the most brutal that has come to their notice in many years. Stacey was found Sunday night immediately after the murder by citizens in the neighborhood. He was lying in a pool of warm blood, his head smashed and a gaping gunshot wound in his back. The gun was held against the man's back when fired. The authorities worked all night on the case and made several arrests, but were unable to get the right man.

Evidence shown in the preliminary hearing shows the trouble started over Stacey's friendship and influence over Randal's wife, which was declared to be the motive of the killing. Randal separated from his wife a short time ago, and since then she has been living with her father here. Sunday Randal came to see his wife and learned that Stacey was also in the city. He procured a shotgun and followed Stacey, who later made in the direction of the place where Randal's wife is stopping. When they came up with each other Stacey said: "Don't kill me, Lee," and a shot followed. Randal then, according to his story, left for his home at Eagle Ford, where he passed the night, giving himself up at 11 o'clock Monday morning.

Randal made a statement that Stacey broke up his home and this was his reason for satisfying his revenge by taking Stacey's life. Randal told his wife of the murder before going to Eagle Ford.

OPPENHEIMER NO MORE.

Retired Texas Major General and a Spanish War Veteran.

Austin, Sept. 24.—Governor Lanham Monday morning received a telegram from Lieutenant Governor Deal at Navasota announcing the death there of General L. M. Oppenheimer, aged sixty-four years. He had been ill for some time, going to Navasota a few days ago. His home was here. He was one of the most prominent citizens of Texas, especially in military circles. He was a member of the national board for the promotion of rifle practice. He was also a retired major general of the National guard, and participated in the Spanish-American war. He was chairman of the state sanitary board and chairman of the water and light commission of Austin. General Oppenheimer was a Hebrew. He was at one time a banker of El Paso. He is survived by a widow, who is ill, and several relatives.

LARGE DEAL ON.

Great Issue of State Bonds Is Likely to Be Purchased.

Austin, Sept. 24.—The state board of education has a deal on foot whereby it proposes to purchase the issue of state bonds, amounting to \$450,000, now held by parties at Chicago. The bonds are for the benefit of the permanent school fund. This fund holds all of \$3,000,000 state bonds except about \$550,000. The bonds bear 5 per cent interest.

CANNOT GO.

Bryan Said He Was Unable to Pay Houston a Visit.

New Orleans, Sept. 24.—Shortly after his arrival at this city Mr. Bryan was in conference with a committee from Houston, Tex., headed by R. M. Johnston, Democratic national committeeman, and Congressman T. H. Ball. Mr. Johnston said after this meeting that it had no political significance; that they had invited Mr. Bryan to Houston, but that he could not accept.
